about
technologies?*

So are we!

INTERNATIONAL GRADUATE PROGRAM

Who We Are

We believe that you don't simply want to be hired to do a job, but want to join an organisation with like-minded people in an agile environment where you can both learn and contribute to prepare your own future.

With more than 15,000 skilled employees and a solid presence in Europe, Asia and America, the AKKA Technologies Group is one of the leaders among European consulting engineering companies.

To keep pace with this fast-changing world, AKKA Technologies created The AKKAdemy. Bringing together high-potential engineers from all over Europe to become the next generation of top engineering consultants.
